THE GRAND TOUR

One of the greatest art writers in the English language, John Ruskin known for numerable achievements, one of which ensured success for the Pre-Raphaelites, Britain's first avant-garde art movement, declared Lake Maggiore so beautiful that he called it, 'The Garden Of Eden'. He was among one of the elites who visited Lake Maggiore on the Grand Tour circuit (where young scholars from the UK & US embarked on expeditions from the 17th to 19th centuries to learn about European history and culture).
